## Obtaining Health Fund Rebates

A receipt will be issued at the time of purchase, and will include the therapist's Provider Number for Health Fund Rebates. The clinic does not have HICAPS, so all Health Fund Rebates will need to be claimed by the consumer by presenting their receipt to their Health Fund.

Please check with your Health Fund regarding eligibility for a rebate, as this will depend on the type and level of cover.

## CHANGES TO HEALTH FUND REBATES FOR KINESIOLOGY

Please note as from 1<sup>st</sup> April 2019, the Australian Government's reforms for private health insurance mean that certain natural therapies will no longer be eligible for health fund rebates. KINESIOLOGY is one of sixteen natural therapies that will no longer be eligible for health fund rebates.

Claims for services dated prior to 1 April 2019 will continue to be paid as arranged, however claims for services dated 1 April 2019 forward will be rejected by the funds as required by legislation.
